What it would be amazing if everyone could have an End-of-Life Doula, the facilitator may do so. In that case, you need guidance on how to help those you love in a gentle, loving, and sacred way.

Sheila became an End-of-Life Doula after her husband died from aggressive cancer. The experience of heartache and being the primary caregiver was life-altering. Providing emotional and physical support to her dying husband and their children led her to work with the dying. Sheila was trained through NEDA (National End of Life Doula Association).
